PROFESSIONAL SUMMARY

Motivated 2nd-year B.Tech undergraduate in Artificial Intelligence and Data Science at Mount Zion College of Engineering and Technology (Autonomous). Passionate about developing predictive machine learning models, exploratory data analytics, and intelligent software applications. Strong foundational grasp of Data Structures, Algorithms, and Object-Oriented design, actively seeking internship opportunities to contribute and learn in dynamic engineering environments.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence & Data Science

2025 – 2029

Mount Zion College of Engineering and Technology (Autonomous), Pudukottai

Affiliation: Anna University, Chennai | **Current Status:** 2nd Year (Semester 4) | **CGPA:** 8.75 / 10.0

Relevant Coursework: Data Structures & Algorithms, Probability & Statistics for AI, Database Management Systems (DBMS), Linear Algebra, Python for Data Science, Object-Oriented Programming (Java/C++).

TECHNICAL SKILLS

Languages	Python, SQL (PostgreSQL, MySQL), C++, C, Java, JavaScript (ES6+)
ML & Data Science	Scikit-Learn, Pandas, NumPy, PyTorch, Matplotlib, Seaborn, OpenCV, Jupyter Notebooks
Web & Frameworks	HTML5, CSS3, Flask, FastAPI, Streamlit, RESTful APIs, GitHub Pages
CS Core & Tools	Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Git & GitHub, Linux

TECHNICAL PROJECTS

Student Academic Performance Predictor `[Python, Scikit-Learn, Streamlit, Pandas, NumPy]` 2024

- Engineered a machine learning pipeline predicting final student grades based on study habits, attendance, and behavioral metrics.
- Applied data preprocessing, feature importance scaling, and comparative evaluations across Random Forest and Decision Tree classifiers.
- Deployed an interactive web dashboard using Streamlit enabling educators to identify at-risk students for proactive academic intervention.

Telecom Customer Churn Analytics `[Python, Pandas, Seaborn, Matplotlib, Jupyter]` 2024

- Executed thorough Exploratory Data Analysis (EDA) across 10,000+ subscriber profiles to uncover behavioral churn factors.
- Identified key contract longevity and billing friction points, providing actionable insights to optimize retention campaigns.

SmartDoc: AI PDF Q&A & Summarizer `[Python, FastAPI, HuggingFace, PyPDF2]` 2024

- Built a lightweight document retrieval pipeline that chunks academic research PDFs and stores contextual vector representations.
- Integrated semantic similarity search to generate precise, cited answers to user queries with low inference latency.

CERTIFICATIONS & ACHIEVEMENTS

- **Machine Learning Specialization – DeepLearning.AI & Stanford Online** — Coursera | Nov 2024
- **Applied Data Science with Python – Kaggle & University of Michigan** — Credentialed | Jun 2024
- **Finalist – Inter-College AI Hackathon & Tech Fest (Top 10 out of 80+ Teams)** — Campus Council | Sep 2024
